\$10 Buy-in	

**INSTRUCTIONS + RULES**

For each character, choose whether they will be alive or dead at the finale of season 8 (mark the cell with an "X"). Every correct answer is worth 2 points. If you choose "Dead", you can **optionally gamble 1 point** on whether or not they will become a White Walker (mark cell with "Yes" or "No" or leave blank). An incorrect White Walker selection will result in the loss of 1 point. Bonus point column is only valid if the character dies in the show. Finally, choose **ONE** character who will end up on the Iron Throne (or one **write-in option** at the bottom). Player with the most points at the end of season 8 wins the pot.

**NOTE**

Any character who makes no appearance at all will be considered alive. Any character that is killed and resurrected (ex: Jon Snow) will be considered alive. Any character implied as dead but whose death is not explicitly shown (ex: Stannis Baratheon) will be considered dead. Becoming a White Walker even partially (ex: Uncle Benjen) is considered being dead and White Walker. The Night King and Viserion are exceptions who must be shown explicitly destroyed to be considered dead.
